

MOISTURE CURABLE COMPOSITIONS
WITH ENHANCED ADHESION TO POLYOLEFINS

ABSTRACT OF THE DISCLOSURE:

[0054] Moisture curable compositions that include alkoxysilyl capped polymer compounds and alkylsilyl capped plasticizers adhesively cure to polyolefin substrates, including polyethylene and polyolefin substrates. The compositions are curable at room temperature or at temperatures greater than room temperature. The compositions further include an adhesion promoter, a filler or a moisture curing catalyst.
